INTEGRATION WITH SESSIONS AND MEETINGS MANAGEMENT

SESSION SCHEDULING

- coordinates directly with **MEETING COORDINATION AND SCHEDULING** for unified session planning (<->)

AGENDA CREATION AND MANAGEMENT

- sends session agendas to **MEETING COORDINATION AND SCHEDULING** for meeting preparation (->)

DATA FLOW DIAGRAM GUIDELINE

LGU 2: Legislative Agenda and Calendar Management

LEVEL 0: CONTEXT DIAGRAM

External Entities:

- Legislative Members
- Committee Members
- Public/Citizens
- Administrative Staff
- System Administrators

Main System:

LGU 2: LEGISLATIVE AGENDA AND CALENDAR MANAGEMENT

Data Flows:

From External Entities to System:

- Legislative Members → Session attendance, Agenda proposals, Vote submissions
- Committee Members → Committee schedules, Meeting attendance, Action items
- Public/Citizens → Consultation feedback, Hearing attendance
- Administrative Staff → Task updates, Document submissions, Schedule requests
- System Administrators → System configurations, User management

From System to External Entities:

- System → Legislative Members: Session schedules, Agenda items, Deadline reminders, Voting schedules
 - System → Committee Members: Committee schedules, Action item deadlines, Meeting reminders
 - System → Public/Citizens: Public hearing notices, Consultation schedules, Meeting announcements
 - System → Administrative Staff: Task assignments, Deadline alerts, Calendar updates
 - System → System Administrators: System reports, Error logs, Performance metrics
-

LEVEL 1: MAIN PROCESSES

Process 1.0: MANAGE CALENDAR

Inputs:

- Session schedules from Process 2.0
- Agenda items from Process 3.0
- Task completion status from Process 4.0
- Reminder notifications from Process 5.0
- External schedules from other systems

Processes:

- Consolidate all schedules and deadlines
- Display unified calendar view
- Synchronize calendar updates
- Generate calendar reports

Outputs:

- Unified calendar display to all users
- Calendar updates to all processes
- Schedule conflicts alerts
- Calendar reports

Data Stores:

- D1: Calendar Events
 - D2: Schedule History
-

Process 2.0: SCHEDULE SESSIONS**Inputs:**

- Session requests from Legislative Members
- Agenda items from Process 3.0
- Calendar availability from Process 1.0
- Committee schedules from external systems
- Hearing schedules from external systems
- Voting requirements from external systems

Processes:

- Create session schedules
- Allocate session time slots
- Coordinate with external schedules
- Validate session feasibility
- Manage session changes

Outputs:

- Session schedules to Process 1.0
- Session dates to Process 3.0
- Session information to Process 4.0
- Session details to Process 5.0
- Session schedules to external systems (Committees, Hearings, Voting, Meetings, Archives)

Data Stores:

- D3: Session Records
- D4: Session Templates

Process 3.0: MANAGE AGENDA

Inputs:

- Agenda proposals from Legislative Members
- Session schedules from Process 2.0
- Committee recommendations from external systems
- Ordinances/Resolutions from external systems
- Consultation topics from external systems
- Hearing topics from external systems
- Historical agenda data from external systems

Processes:

- Create agenda items
- Sequence agenda items
- Attach supporting documents
- Update agenda status
- Finalize agenda for sessions

Outputs:

- Agenda items to Process 1.0
- Agenda items to Process 2.0
- Agenda deadlines to Process 4.0
- Agenda details to Process 5.0
- Approved agendas to external systems (Committees, Voting, Hearings, Consultations, Archives)

Data Stores:

- D5: Agenda Items
 - D6: Agenda Templates
 - D7: Agenda History
-

Process 4.0: TRACK AND MONITOR DEADLINES

Inputs:

- Session schedules from Process 2.0
- Agenda deadlines from Process 3.0
- Task assignments from Administrative Staff
- External deadlines from all integrated systems

Processes:

- Monitor all deadlines
- Track task completion
- Identify overdue items
- Generate status reports
- Trigger deadline alerts

Outputs:

- Completion notifications to Process 1.0
- Status updates to Process 2.0
- Completion alerts to Process 3.0
- Deadline notifications to Process 5.0
- Status reports to all users
- Completion status to external systems

Data Stores:

- D8: Deadlines Database
 - D9: Task Status Records
 - D10: Completion History
-

Process 5.0: MANAGE REMINDERS

Inputs:

- Session schedules from Process 2.0
- Agenda items from Process 3.0
- Deadline notifications from Process 4.0
- External event reminders from all integrated systems

Processes:

- Generate reminder schedules
- Send automated notifications
- Manage reminder preferences
- Track reminder delivery
- Escalate overdue reminders

Outputs:

- Reminder notifications to Process 1.0
- Reminders to all users (Legislative Members, Committee Members, Administrative Staff)
- Reminder confirmations to external systems

Data Stores:

- D11: Reminder Queue
 - D12: Notification Log
 - D13: User Preferences
-

LEVEL 2: DETAILED SUB-PROCESSES

Process 3.1: CREATE AGENDA ITEMS

Inputs:

- Agenda proposals from Legislative Members
- Session availability from Process 2.0
- Supporting documents from external systems

Sub-processes:

- 3.1.1 Validate agenda proposal
- 3.1.2 Assign agenda metadata
- 3.1.3 Attach supporting documents
- 3.1.4 Set agenda item priority

Outputs:

- New agenda items to D5: Agenda Items
 - Agenda notifications to Process 5.0
-

Process 3.2: SEQUENCE AGENDA ITEMS

Inputs:

- Agenda items from D5: Agenda Items
- Session schedules from Process 2.0
- Reading stage requirements from external systems

Sub-processes:

- 3.2.1 Determine item priority
- 3.2.2 Apply sequencing rules
- 3.2.3 Allocate time slots
- 3.2.4 Resolve conflicts

Outputs:

- Sequenced agenda to D5: Agenda Items
 - Updated agenda to Process 1.0
-

Process 3.3: FINALIZE AGENDA

Inputs:

- Sequenced agenda from D5: Agenda Items
- Approval from Legislative Members

Sub-processes:

- 3.3.1 Review agenda completeness
- 3.3.2 Generate final agenda document
- 3.3.3 Distribute agenda
- 3.3.4 Archive agenda version

Outputs:

- Finalized agenda to external systems
 - Agenda deadlines to Process 4.0
 - Archive copy to external archives
-

Process 4.1: MONITOR SESSION DEADLINES

Inputs:

- Session schedules from Process 2.0
- Current date/time

Sub-processes:

- 4.1.1 Check upcoming sessions
- 4.1.2 Calculate time remaining
- 4.1.3 Identify preparation tasks
- 4.1.4 Flag overdue preparations

Outputs:

- Session alerts to Process 5.0
 - Status updates to D9: Task Status Records
-

Process 4.2: MONITOR AGENDA DEADLINES

Inputs:

- Agenda deadlines from Process 3.0
- Current date/time

Sub-processes:

- 4.2.1 Track agenda item progress
- 4.2.2 Monitor submission deadlines
- 4.2.3 Check document completion
- 4.2.4 Identify delays

Outputs:

- Agenda alerts to Process 5.0
 - Completion status to Process 3.0
-

Process 4.3: MONITOR EXTERNAL DEADLINES

Inputs:

- External deadlines from all integrated systems

Sub-processes:

- 4.3.1 Consolidate external deadlines
- 4.3.2 Cross-reference with internal tasks
- 4.3.3 Track external task completion
- 4.3.4 Report status to external systems

Outputs:

- External deadline alerts to Process 5.0
 - Status reports to external systems
-

DATA STORES DETAILED SPECIFICATION

D1: CALENDAR EVENTS

Description: Stores all calendar events from internal and external systems **Data Elements:**

- Event ID
 - Event Type (Session, Meeting, Hearing, Consultation, Deadline)
 - Event Date/Time
 - Event Location
 - Event Status
 - Participants
 - Related Documents
 - Source System
-

D2: SCHEDULE HISTORY

Description: Historical record of all schedule changes **Data Elements:**

- History ID
 - Event ID
 - Change Type
 - Old Value
 - New Value
 - Change Date/Time
 - Changed By
 - Reason
-

D3: SESSION RECORDS

Description: Complete information about all sessions **Data Elements:**

- Session ID
 - Session Type
 - Session Date/Time
 - Session Location
 - Presiding Officer
 - Expected Attendees
 - Actual Attendees
 - Session Status
 - Minutes Document ID
 - Related Agenda ID
-

D4: SESSION TEMPLATES

Description: Reusable session templates **Data Elements:**

- Template ID
 - Template Name
 - Session Type
 - Default Duration
 - Default Participants
 - Standard Agenda Structure
 - Required Documents
-

D5: AGENDA ITEMS

Description: All agenda items for all sessions **Data Elements:**

- Agenda Item ID
 - Session ID
 - Item Number
 - Item Title
 - Item Description
 - Item Type
 - Item Priority
 - Item Status
 - Sponsoring Member
 - Related Documents
 - Deadline
 - Reading Stage
 - Committee Assignment
-

D6: AGENDA TEMPLATES

Description: Standard agenda templates **Data Elements:**

- Template ID
 - Template Name
 - Session Type
 - Standard Sections
 - Default Time Allocations
 - Required Items
-

D7: AGENDA HISTORY

Description: Version history of all agendas **Data Elements:**

- History ID
- Agenda Item ID

- Version Number
 - Change Description
 - Changed By
 - Change Date/Time
 - Previous Value
 - Current Value
-

D8: DEADLINES DATABASE

Description: Consolidated deadlines from all sources **Data Elements:**

- Deadline ID
 - Deadline Type
 - Related Item ID
 - Due Date/Time
 - Priority Level
 - Assigned To
 - Status
 - Source System
 - Reminder Schedule
-

D9: TASK STATUS RECORDS

Description: Current status of all tracked tasks **Data Elements:**

- Task ID
 - Task Type
 - Related Deadline ID
 - Assigned To
 - Start Date
 - Due Date
 - Completion Date
 - Status
 - Progress Percentage
 - Notes
-

D10: COMPLETION HISTORY

Description: Historical record of completed tasks **Data Elements:**

- Completion ID
- Task ID
- Completed By

- Completion Date/Time
 - On Time Status
 - Delay Reason
 - Verification Status
-

D11: REMINDER QUEUE

Description: Pending reminders to be sent **Data Elements:**

- Reminder ID
 - Related Item ID
 - Reminder Type
 - Recipient(s)
 - Scheduled Send Time
 - Message Content
 - Priority
 - Status
 - Retry Count
-

D12: NOTIFICATION LOG

Description: History of all sent notifications **Data Elements:**

- Log ID
 - Reminder ID
 - Sent Date/Time
 - Recipient
 - Delivery Status
 - Read Status
 - Response
-

D13: USER PREFERENCES

Description: User notification preferences **Data Elements:**

- User ID
 - Reminder Frequency
 - Notification Methods (Email, SMS, In-App)
 - Advance Notice Period
 - Quiet Hours
 - Priority Filters
